

BAKER'S BAY MARINA

Discovery Land Company expands its luxury private-club brand to Abaco Islands

AFTER OPENING successful private-club communities such as Iron Horse in Montana and Kukio Beach Club in Hawaii, Discovery Land Company is developing a marina, golf and beach community on Great Guana Cay in the Bahamas. Still under construction, but with temporary buildings befitting a cushy high-end club, the marina is one of the few places in the Abacos that can take large yachts. The completed marina will sport 158 slips, 20 for boats 80 to 250 feet, with maximum 14-foot drafts. Amenities will include basics such as water, power, satellite and phone hook-up, Wi-Fi, in-slip sanitary pump-out, solid waste collection, fuel and security. Members can also choose from the Concierge or Platinum levels, depending on the level of extra services desired. The Baker's Bay Golf and Ocean Club is a private equity membership club with 244 custom home sites, 115 single-family developer residences, a golf course and clubhouse with a spa, boutique and restaurants. The marina is scheduled to open fall 2008. Contact *Baker's Bay Club* at 561-833-9590. www.bakersbayclub.com
